

What's Crucial to you?

Performance in the palm of your hand.

Introducing the Crucial Gizmo!™ USB flash drive — a sleek, portable, efficient alternative to yesterday's floppy disk. With the Gizmo! drive, it's faster and easier than ever to access and transfer data from one computer to another. Carry this compact little number anywhere you go. It weighs next to nothing and slips easily into a pocket, purse, or briefcase. Available in 64MB, 128MB, and 256 MB, even the smallest capacity version holds more than 40 times the data of a floppy disk.

The Crucial Gizmo! drive received the Club Overclocker Seal of Approval and was rated #1 for devices in its class for being backed by Crucial's outstanding lifetime warranty.

"You've seen them everywhere under every brand name known to mankind. They are extremely handy, portable, and reliable. They come in all shapes, sizes, and color. They are non-polluting, reusable, and I'm sure James Bond even has a few! Yes, it's those cool little USB flash drives that are no bigger than a lighter or a pack of chewing gum! So what's so different about this one you say? One word...Crucial! Crucial has been synonymous with the word QUALITY for years. With the Crucial name backing this product, we now have a portable USB flash drive we can trust." — ClubOC.net reviewer
